## **HOLLAND GROWN BULBS ARE „THE WORLD’S FINEST”**

Centuries of experience and know-how are the background for the development of the Dutch culture of bulb-growing. No other agricultural product, anywhere in the world, is subject to such rigid inspection as that given to bulbs by the Dutch Dept. of Agriculture.

The result is the highest possible standard of quality and the export of bulbs has become one of the major items in the Dutch economy.

A. J. VAN ENGELEN'S BULBFARMS are among the most efficiently staffed and fully equipped in our country.

The bulb area has not been damaged by the disastrous floods, that inflicted such incredible losses to life and property.

Export of bulbs will be normal, we even expect an increase in 1953.

### **IMPORTANT**

Our prices are for delivery FREE ON RAIL TO ANY PORT OF ENTRY ON THE ATLANTIC OR PACIFIC COAST.

# TULIPAS (The earliest of all tulips)

*These are the original „wild tulips“, found in the woods of Turkey and Asia Minor and which were improved and meliorated by the Dutch growers. Excellently suited for small groups or for planting in the rockery. The botanical tulips flower almost two weeks before the early tulips and it may be said that they open the „Tulip season“ in a glorious way. During the last few years the demand for this type bulb has increased tremendously. To be sure of delivery, order early.*

| <b>Eichleri</b> , a most favored rockery tulip, large crimson-scarlet flowers, with a lighter shade on the outside petals. Yellow and black-centre. Height 12 inches. A very strong flowering variety, lasting for weeks . . . . .   | 4.—        |
| <b>Fosteriana Cantate</b> , brilliant vermilion-red. Enormous flower. The foliage is most beautiful, broad shiny dark green leaves . . . . .   | 8.—        |
| <b>Fosteriana Red Emperor (Mad. Lefeber)</b> , the largest and most beautiful tulip we have ever seen, resembling a gigantic poppy. The enormous large vermilion-scarlet flowers on high and strong stems give a brilliant effect when planted in groups. Please give this tulip the best place of your garden, protecting it against hard winds, and you will enjoy its beauty for several weeks. When half opened, the flower shows its marvellous butterflyheart, colored deep black, bordered by a yellow edge. Height 22 inches . . . . . | 8.50       |
| <b>Fosteriana Princeps</b> , nearly the same flower as Red Emperor, but the stems are only 12 inches. Therefore for real rockery-work, this variety is often preferred. Moreover it flowers about a fortnight later. We advise you to order both sorts . . . . .   | 8.50       |
| <b>Kaufmanniana „Elliot“</b> , an improved „Waterlily Tulip“ producing long shaped clear red flowers with white borders. A nice and attractive new variety with a fine orange-yellow centre. Height 15 inches. . . . .   | 9.—        |
| <b>Kaufmanniana „Gaiety“</b> , very dwarf flowering variety. The flowers seem to creep over the ground. Very nice, especially when the flowers are open. The petals seem to cover the ground and you can enjoy the wonderful beauty of its yellowish heart. Outside petals red with creamy border. This is the real Waterlily tulip . . . . .  | 10.—       |
| <b>Kaufmanniana „Vivaldi“</b> , a wonderful new variety, growing about 15 inches high and producing nice and strong flowers of a beautiful orange-red color with yellow border. The leaves are variegated . . . . .  | 10.—       |
| <b>Praestans „Fusilier“</b> , an early flowering variety, producing two or more very fine orange-scarlet flowers on each stem. Very striking . . . . .   | 12.—       |

# NOVELTIES

There are at least 1000 different varieties of tulips and narcissi. During the last ten years the selection has been so improved, that one would think it impossible that new varieties could be acquired, which could surpass the existing assortment.

Yet, the Dutch hybridizers never cease in their search for perfection and originality. Each year they exhibit their achievements before expert judges, who decide whether a new acquisition is really an improvement on an existing variety.

If their decision is favorable, a few bulbs may make their grower a small fortune. The sky is the limit, and it still happens that bulbs are sold against their weight in gold.

We have received many inquiries for a more extensive list of varieties than our regular catalog. We have made a careful study of most of the novelties, that emerged during the last few years, and are preparing a list of the outstanding varieties of tulips, daffodils and narcissi, which we consider to be real prize winners.

We shall be glad to send you such a list on request.

*Here are a few special varieties, which we can recommend to any Tulip fancier, who would like "something different":*

	p. 100
<b>Aladin</b> , the daintiest of all lilyflowering tulips, dark scarlet with a narrow creamy edge, inside orange red, with golden yellow base. A most charming specimen . . . . . per dozen \$ 2.50	\$ 17.50
<b>Artist</b> , the most extraordinary of the botanical tulips. The color is a very unusual combination of terra cotta and green, passing entirely into green as the flower ages. Very long lasting . . . per dozen \$ 6.—	40.—
<b>China Pink</b> , semi lilyflowering, a beautiful light pink on a white base. Very graceful and exquisite . . . . . per dozen \$ 2.—	15.—
<b>Holland's Glory</b> , this is the most perfect, the largest and strongest of all tulips. There is no other variety with such a beautiful warm dazzling scarlet color. It won the highest awards on all exhibitions of the last few years. A small group of these tulips will be a show by itself . . . . . each \$ 1.50 per dozen \$ 15.—	—.—

<b>Babylon</b> , this is no doubt the largest of all Shortcup-Narcissi, the large petals are of the purest white, and the crown is of a striking orange red color. A very fine novelty!	8.50	75.—
<b>Bay Shore</b> , substantially sulphur-yellow perianths with a beautiful fringed cup of soft orange . . . . .	8.50	75.—
<b>Carlton</b> , strong sulphur-yellow perianths and a large wide open clear yellow cup. Carlton is classified among the short cups, but it is more looking like a trumpet. Vigorous growth and specially good forcing qualities . .	8.—	75.—
<b>Coverack Gem</b> , creamy white petals with exceptionally large cup, which lies flat on the petals. The color of the cup is orange-red. An outstanding novelty . . . . .	11.—	100.—
<b>Dick Wellband</b> , pure white perianth, large brilliant orange cup. The color does not fade in the sun, but rather intensifies with age . . . . .	9.—	80.—
<b>E. G. Buxton</b> , a novelty of exquisite beauty, large creamy white petals, with clear-cut orange cup. Strong and vigorous grower. Excellent for outdoors and also a good forcer . . . . .	10.—	90.—
<b>Erie</b> , a large flower of good form and rather novel coloring, having a pinkish buff-tones perianth with rounded flat petals and a coppery red cup. A unique variety. Can be distinguished from hundreds of other varieties . . . . .	10.—	90.—
<b>Fancheon</b> , same shape and growth as Coverack Gem; the petals are also creamy white, but the orange cup is much larger. Uncomparable with any variety you have ever seen before . . . . .	11.—	100.—
<b>Flower Record</b> , a recent introduction, which produces a bold large flower with large pure white perianth and a large expanding crown of orange with bright orange at margin. We do not know any other variety, producing such a mass of flowers . . . . .	8.50	80.—
<b>Fortune</b> , one of the best newer varieties, very large flowers on tall stems. Perianth overlapping, rich golden yellow, immense crown of red-orange color. A splendid garden plant of highest decorative value . . . . .	11.—	100.—
<b>Hades</b> , yellow perianths and a very striking orange red crown. One of the best shortcups . . . . .	12.—	110.—

## GLADIOLI - DAHLIAS - BEGONIAS

We grow large quantities of the above items and other summer flowering bulbs and we feel that the Dutch Glads and Dahlias will prove to be a desirable supplement to the existing American varieties.

During the last decade our Dutch growers have made tremendous progress in improving their stock. Only the most perfect specimens of form and color were retained.

In Glads there is hardly a variety that will not bloom with eight florets open at the same time. Dahlias of all types, such as Cactus, Decorative or Pompons were only retained if they were the largest, or the richest flowering or the most perfectly colored.

We feel that we have something good to offer and are in a position to do so at very reasonable prices.

Most of these bulbs are ready for shipment from late fall until early spring.

If you are interested we shall be glad to send you our pricelist sometime in September or early October.

Please apply for your free copy.

# CROCUS

The prettiest and most popular early Springflowers. Crocus can be planted in any place and they do not need any special care. Once planted they come back year after year with an increasing richness of flowers.

For indoor-culture, we advise you to order the very largest ones, giving from 6 to 10 flowers each.
